

## **TECHSOFT Supports General Dynamics Ordnance and Tactical Systems Achievement of CMMI® Maturity Level 2**

*Pensacola, Florida* – General Dynamics Ordnance and Tactical Systems (GD-OTS), Niceville, successfully achieved Capability Maturity Model Integration (CMMI®) Maturity Level 2.

GD-OTS Niceville is a quality provider of research, investigation and demonstration of munitions concepts; engineering, design and development of warheads and warhead subsystems; precision munitions system and subsystem integration; management services for munitions contracts for the U.S. Government and other domestic and foreign customers; and munitions testing services.

Dick Davitt, Vice President and General Manager of Precision Systems for General Dynamics Ordnance and Tactical Systems, stated during the final findings briefing on Friday, December 14th, that this achievement is a success not only for GD-OTS Niceville, but is historic in that Niceville is the first Ordnance and Tactical Systems organization to achieve organization-level CMMI® Maturity Level 2.

TECHSOFT provided key consulting, training and appraisal services to support the CMMI® effort.
